

Syed Usman Hassan

Software Engineer @ FFC | .NET 8 | Micro Services | BLAZOR | SQL Server | DevExpress

Email: usmanhassannaqvi@gmail.com | **Phone:** +92 305-7775900

About Me

Full Stack .NET Developer (2+ years) experienced in custom apps development. Currently working at FFC and available for freelance, project-based work delivering tailored software solutions.

Skills

- **Backend:** C#, .NET Core / .NET 8, ASP.NET MVC, Blazor, Microservices, Database Architecture
- **Data & ORM:** Entity Framework, SQL Server, Oracle
- **Reporting Tools:** DevExpress, Crystal Reports
- **Frontend & UI:** HTML, CSS, JavaScript, Bootstrap, Tailwind, SASS
- **Automation & Integration:** RPA (UiPath), SAP Integration, Schedulers, Cron Jobs
- **Security & Workflows:** Single Sign-On (SSO), Mail Automation, Workflow Automation

Education

- BSc Computer Science, 2019–2023 | CGPA: 3.33
- FSC Pre-Engineering, 2017–2019 | 874/1100
- Matriculation, 2015–2017 | 951/1100

Recent Projects

- **Payment Order Application** – Built a digitalized PO system using **.NET Core and SQL Server**, streamlining financial workflows, automating approvals, and reducing manual errors in payment processing.
- **Mess Management System** – Developed a complete solution for **billing, attendance**, and menu tracking, integrating **mail delivery automation** to send monthly bills directly to employees.
- **Facility Booking System** – Designed a workflow-driven app with **auto cancellations, scheduling**, and real-time notifications, including cron job scheduling for task automation and reminders.

Professional Experience
