PROFESSIONAL SUMMARY

Full Stack **.NET Developer** with **2+ years** of experience designing, developing, and maintaining robust enterprise applications using **.NET 8, Blazor**, ASP.NET, and modern architectures. Skilled in building scalable SaaS solutions, optimizing performance, and delivering high-quality code. Passionate about clean architecture, microservices, and automation to meet evolving business needs.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript/TypeScript, SQL
.NET Technologies: .NET 7/8, ASP.NET MVC, Blazor (Server/WASM/Auto), Entity Framework Core, Web APIs
Frontend: React JS, Bootstrap, Tailwind CSS, DevExpress, Razor Pages
Databases: SQL Server (Performance Tuning), Oracle, PostgreSQL
DevOps & Tools: Docker, Git/GitHub, IIS, SSMS, Postman, Jira
Other: UiPath (RPA), SAP Integration (NwRFC), DevExpress Reports, SAP Crystal Reports

SOFTWARE ARCHITECTURES

- Clean Architecture
- Domain-Driven Design (DDD)
- Vertical Slice Architecture
- Event-Driven Architecture
- Microservices & Modular Monolith

EDUCATION

COMSATS University Islamabad - Sahiwal Campus 2019 – 2023
Bachelor of Science in Computer Science

HOBBIES & INTERESTS

Content writing | Open source contributions | System & Architecture Design (HLD/LLD) | Answering questions on StackOverflow

PROFESSIONAL EXPERIENCE

Executive - ICT Aug 2025 – Present
Fauji Fertilizer Company (FFC) Rawalpindi

- Architected **FFC Orbit**, a modular enterprise platform enabling fast development and seamless API integrations.
- Designed cloud-based architecture supporting third-party integrations without core system changes.
- Implemented authentication using **Microsoft Identity** and versioning with GitHub.
- Integrated SAP systems and optimized APIs/databases for high performance.

Management Associate - ICT Jan 2024 – Aug 2025
Fauji Fertilizer Bin Qasim Limited (FFBL) Islamabad

- Developed enterprise applications including **Mess Management System** and **Facility Booking Application**.
- Implemented multi-level approval workflows and custom reporting using DevExpress.
- Automated business processes to improve operational efficiency.

RECENT PROJECTS

Payment Order Application | .NET 8, Blazor, SQL Server

- Built a core finance system with multi-level approvals, audit logs, and real-time notifications.
- Designed secure role-based architecture improving workflow efficiency.

Facility Booking Application | .NET 7, Blazor, DevExpress, SQL Server

- Developed real-time scheduling platform with conflict management and approval workflows.
- Enhanced resource utilization across departments.

Mess Management System | .NET 7, Blazor, DevExpress, SQL Server

- Created automated system for meal tracking, billing, and centralized dashboards.
- Replaced manual processes, improving transparency and efficiency.

TRAININGS & CERTIFICATIONS

- ITIL 4 Foundation** — LearningCerts (September)
- Master DevOps Principles** — Dice Analytics (November)
- Unlock AI Potential** — Knowledge Stream (December)

AWARDS

Awarded **Honorary Shield** for Application Development and recognized as **Full Stack .NET Developer** for outstanding contributions.
